

9 Existing legislation, policies and conventions

A number of existing legislation, policies and international conventions interact with the WLEMP and WLCMP, and by utilising these where appropriate the management objectives of the WLEMP are more likely to be realised. A detailed summary of the legislation, policies, strategies, principles and plans relevant to the WLEMP is given in Appendix 1 of the WLCMP.

[Figure 9.1: Legislation, policies and conventions that make up the natural resource planning framework and can be used as tools to implement the WLEMP and WLCMP (Modified from the WLCMP)]
